

# EXPLORING OUR NATIVE FOREST CHALLENGE

Find a koru.  
What will it turn into?

Find a big rangiora leaf.  
What do you think these could be used for?

Spot a bug hole and figure out what made it!

What is the biggest tree that you can find?

Look in rotting logs and under things to find an interesting bug.

Check out a trap (look, but don't touch!)

Find a hollow tree or log and look inside!

Walk along a log and balance carefully!

Take a photo of interesting fungi

Find some lichen.  
How many different colours can you find?

Find a natural taonga  
(Leave it in the ngahere)

Find a perfect mahoe skeleton leaf
